

MASTER SERVICE AGREEMENT

Between VendorSentry Inc. and CloudVault Solutions

1. SCOPE OF SERVICES

CloudVault Solutions ("Vendor") shall provide cloud infrastructure management, data backup, and disaster recovery services. The Vendor will have access to the Client's AWS S3 buckets, Kubernetes clusters, and CloudWatch monitoring logs.

2. DATA ACCESS AND HANDLING

The Vendor acknowledges that it will process Personally Identifiable Information (PII) as part of its service delivery. The Vendor shall NOT process or store any financial data, including payment card data, banking details, or transaction records. All PII processing must comply with GDPR and CCPA regulations.

3. SECURITY AND COMPLIANCE

The Vendor maintains SOC 2 Type II certification (current, annual renewal). The Vendor is currently undergoing an ISO 27001 audit but is not yet certified. The Vendor shall maintain an information security management system and provide evidence of annual penetration testing.

4. SERVICE LEVEL AGREEMENT

The Vendor guarantees 99.99% uptime for all production services. In the event of a data breach, the Vendor shall notify the Client within 24 hours of discovery. Response time for critical incidents: 15 minutes. Resolution time for P1 issues: 4 hours.

5. TERM AND TERMINATION

This agreement is effective for 24 months from the execution date. Either party may terminate with 90 days written notice. The Vendor must securely delete all client data within 30 days of termination.
